

## **R-9172**

### **Sub Strap for R-9170 & R-9171 (6th generation Camaro Seat Track Adaptor)**

The R-9172 sub strap mounts under the R-9170 or R-9171 seat track adaptor. The R-9170 and R-9171 offer five possible mounting locations for the R-9172, which should be determined by the seat position on the track. The sub strap mount should be affixed between 0° and 20° behind the sub strap hole on the underside of your seat.

Drop the included bolts into the appropriate inside countersunk holes on the R-9170/R-9171. Place R-9172 sub strap mount on far side with the bar away from the floor. Secure using included lock nuts. Belt guide loop can face in either direction.

Performance driving events are by nature potentially hazardous to your health. Brey~Krause Mfg. Co. Inc. shall not be liable for injury, consequential, or other types of damages resulting from the use or misuse of our products. Proper installation of these parts is critical and should only be done by a professional shop.
