

## R-9510

### FITS FERRARI TESTAROSSA ('85-'91)

#### EXTINGUISHER MOUNT

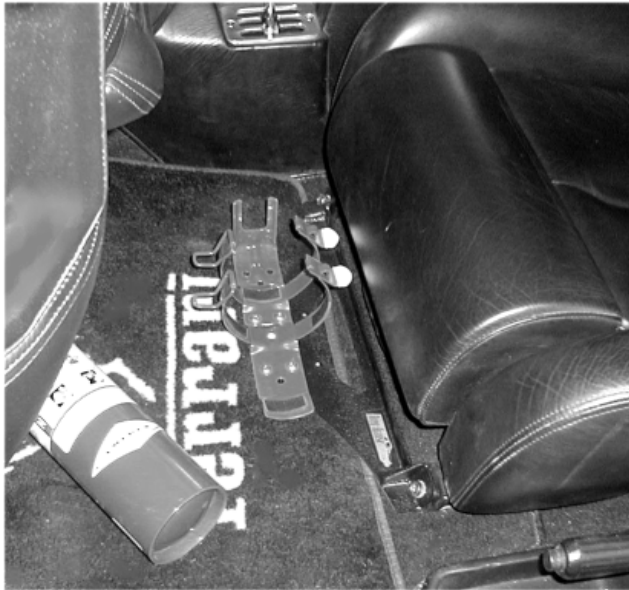

The R-9510 extinguisher-mounting bracket is designed to adapt an Amerex brand 2.5lb. extinguisher to '85 - '91 Ferrari Testarossa models. It locates the extinguisher in front of either the driver or passenger seat. It will limit some of the forward motion of the seat.

Step 1.

Move seat to rear most position. Remove (2) front seat track to floor mounting bolts and washers.

Step 2.

Position the mount as shown below. Substitute supplied bolts (4 mm. longer) for the originals and reinstall with original washers.

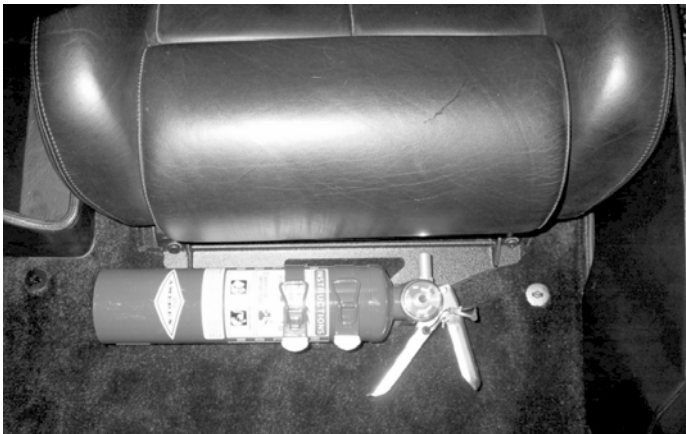

Step 3.

Position the mounting bracket supplied with the extinguisher as shown above. Attach to Brey-Krause mount using supplied hardware. NOTE: There are several combinations for locations of the supplied bracket and the B-K mount. Find the one that works best for your seating position.

Step 4.

Tighten all fasteners and attach. Extinguisher finished installation should look as shown below.

Performance driving events are by nature potentially hazardous to your health. Brey-Krause Mfg. Co. Inc. shall not be liable for injury, consequential, or other types of damages resulting from the use or misuse of our products. Proper installation of these parts is critical and should only be done by a professional shop.
